LEDに関する光学的特性計測、電気的
特性計測、解析・試験等承ります。
We show electro-optical instrumentation and
equipment used to characterize and qualify our
LED products for high performance & lifetime.

ご希望どおりのLEDができる理由

To meet any customer's demand we have 2 step quality process.

弊社設備による2段階の選別がLEDの精度を高めます！

Our 2 step process ensures consistent quality and performance!

Step1

LEDチップ選別機による、チップ状態での選別
Pre-sorting of LED die by high speed machine.

Step2

LED選別機による、発光体での再選別
Final sorting & bin of LED component.
